Brian,

Here is the reimbursement breakdown for Lisa and I (January and February). It looks like the Dermalilk will be a monthly recurring script and the monthly total seems to be \$12,162. I know there is cost of drug in that number...I totally get it. Hopefully if the end result can bump up to like 5K that would be great and truly needed/appreciated.

JANUARY:

Lisa:

1-11-2016	Dermalilk	4282
1-11-2016	Diclofenac	1117
1-11-2016	Lidocaine	682

Terry:
